

Amna Mobile School Services

Amna is a slow learner and a student of the Kaus-e-Kazah School (KKO). Amna was unable to learn online due to the virus and was falling behind in her class but that did not stop KKO for coming up with an innovative and new solution to the challenge. KKO did not let Amna's studies fall victim to Covid-19, instead the school prepared Special Mobile School Service that is a Van with all school items (books, notepads and even the teacher!).

Aman loves school and is trying her best to catch up with her friends with the help of her teacher Mehvish
